*Hello master,*

*I must say that you are a competent and professional teacher, the lesson is well prepared and thorough. I was impressed with your open-mind approach and your full contribution to the whole course. .*

*Some feedback:*

- a. I would suggest students should wear pant for PAT or when lesson,image training as part of the course.*
- b. An one hour case study for golf rule to be added in for the course.It could be small group case presentation from the students and then following open discussion.*
- c. You have very good pictures in your ppt,( Mr Keith). I think this help a lot in explaining your points in class . You may want to consider with lady golfer picture too and some short Video play as well.*
- d. An Swing analysis for each of us as part of the learning, one hour lesson! A quick look at some of the world best golfer swing to make it more interesting on learning.....*
- e. Last, encourage the students to have a 9 hole warm up game on the first day...*

*Good day*

**AK,**

***I just wanted to write a short note and say Thanks for everything during the great week in Thailand.***

***After playing golf for 30years plus, I have never stopped learning. We teachers, are always trying to improve our skills to help our students to improve as well. The week spent studying the game of golf with Peter and Billy, was well worth the time. The instructors went beyond the call of duty, sharing their knowledge of golf and experiences with all of us. The course material and presentation was excellent. And if I can speak for my other fellow students, I think that they will all be able to use our new knowledge immediately upon their return home. I have already, with great success. I am looking forward to the Masters session in the very near future.***

***Thanks again AK, Jason, Ekasih, Peter and Billy, and all the others for your fine hospitality and continued friendship.***

***Best Regards,  
Douglas White***
